Christopher N. Wiggins | Freelance Designer

I am committed to "excellence in design" by strategy, experience and the gift of a creative eye. With over 20 years graphic design experience and 12 years web design experience, I bring a lot to the table. I have also completed many successful client projects for both small and large companies.

In addition to outside projects - I have also designed several consumer products under my own brand.

Therefore, I understand the importance of a strong brand strategy and consistency of brand image and graphical themes. I strive to maintain these "best practices" accross digital or print media platforms with every project plan.

I welcome the opportunity to bid your next creative project and/or promotional products requirement. You can count on excellent communications and customer service from me!

Sincerely,
